

As a citizen of the state of Indiana, I wish to speak out against proceeding 02-278. I am very satisfied with our State's Do Not Call Law and know that the effectiveness of the law will be diminished by preemption from federal law. Most citizens of the State of Indiana do not want our law preempted.

Everyone that I know has chosen to be on the list. No one that I know is in favor of federal preemption of the law.
